Mr. Burnell Baker,
Boulder, Utah

Boulder Dist

RE : ~~APP. NO. 10338~~

Dear Sirs:

Advice has come to this office as of this date to the effect that you have chopped out a weir belonging to Annie C. Hansen and otherwise wrecked a measuring device which had been installed for measuring the water appropriated under Application No. 10338.

Before taking action in this matter, I would be glad to have a statement from each of you relating what you have done if anything, and the reason for your action. A reply by return mail will be appreciated and probably save inconvenience and trouble to all parties concerned.

Yours very truly,

T.H. Humpherys,
STATE ENGINEER
